Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

Concision (alternatively brevity, laconicism, terseness, or conciseness) is the cutting out of unnecessary words while conveying an idea. It aims to enhance communication by eliminating redundancy without omitting important information. Concision has been described as one of the elementary principles of writing. The related concept of succinctness is the opposite of verbosity
