this book difficult to read as a high school student -- my classmates then and my students now have expressed similar opinions. However, this text is much more informal and accessible than any mathematics text I used in college. David continued further and wrote his first open textbook, Math in Society, a math for liberal arts majors book, after being frustrated by students having to pay \$100+ for a textbook for a terminal course. Together, frustrated by both cost and the style of commercial texts, we began writing PreCalculus: An Investigation of Functions in 2010.
