

**car 54 where are pdf**

A custom car is a passenger vehicle that has been either substantially altered to improve its performance, often by altering or replacing the engine and transmission; made into a personal "styling" statement, using paintjobs and aftermarket accessories to make the car look unlike any car as delivered from the factory; or some combination of both. ...

**Custom car - Wikipedia**

A connected car is a car that is equipped with Internet access, and usually also with a wireless local area network. This allows the car to share internet access, and hence data, with other devices both inside as well as outside the vehicle. Often, the car is also outfitted with special technologies that tap into the internet or wireless LAN and provide additional benefits to the driver.
