caregiver survival 101 strategies pdf

Attachment theory is a psychological model attempting to describe the dynamics of long-term and short-term interpersonal relationships between humans. "Attachment theory is not formulated as a general theory of relationships; it addresses only a specific facet": how human beings respond in relationships when hurt, separated from loved ones, or perceiving a threat.

Attachment theory - Wikipedia

Parenting or child rearing is the process of promoting and supporting the physical, emotional, social, and intellectual development of a child from infancy to adulthood. Parenting refers to the intricacies of raising a child and not exclusively to the biological relationship. The most common caretaker in parenting is the biological parent(s) of the child in question, although others may be an ...

Worldwide, the incidence of and mortality from gastric cancer has declined dramatically since the 1930s. (See "Epidemiology of gastric cancer", section on 'Incidence'.) However, gastric cancer remains a lethal disease. In the United States, approximately 26,240 patients are diagnosed annually, and ...

Surgical management of invasive gastric cancer - UpToDate

In this two-day program, participants will explore selected topics that every med-surg healthcare practitioner should know. General concepts will be covered to allow application to a wide variety of care settings, and comprehensive assessment and treatment modalities will be introduced to stimulate the experienced clinician.

Maternal use of certain drugs during pregnancy can result in transient neonatal signs consistent with withdrawal or acute toxicity or cause sustained signs consistent with a lasting drug effect. In addition, hospitalized infants who are treated with opioids or benzodiazepines to provide analgesia or sedation may be at risk for manifesting signs of withdrawal.

Neonatal Drug Withdrawal | From the American Academy of

Purpose: "Recently, the availability of Rituxan has substantially changed therapeutic approach to FL patients, since its combination with chemotherapy has improved response rates, progression free survival (PFS) and overall survival (OS).
