

### **carrying the message an pdf**

Carrying, also colloquially referred to as palming, is a violation in the game of basketball. It occurs when the dribbling player continues to dribble after allowing the ball to come to rest in one or both hands. Carrying is similar to a double dribble because the player momentarily stops dribbling and then resumes dribbling. If the player is in motion while carrying the ball, then it is ...

The carrying capacity of a biological species in an environment is the maximum population size of the species that the environment can sustain indefinitely, given the food, habitat, water, and other necessities available in the environment. In population biology, carrying capacity is defined as the environment's maximal load, which is different from the concept of population equilibrium.
