Marketing research is "the process or set of processes that links the producers, customers, and end users to  
the marketer through information used to identify and define marketing opportunities and problems; generate,  
refine, and evaluate marketing actions; monitor marketing performance; and improve understanding of  
marketing as a process. Marketing research specifies the information required ...

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.
