About This Edition. v. About This Edition. This edition of the . AP Chemistry Course and Exam Description. includes the following changes, which take effect in fall 2014:

### **AP Chemistry Course and Exam Description - College Board**

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

The Nobel Prize in Chemistry (Swedish: Nobelpriset i kemi) is awarded annually by the Royal Swedish Academy of Sciences to scientists in the various fields of chemistry. It is one of the five Nobel Prizes established by the 1895 will of Alfred Nobel, who died in 1896. These prizes are awarded for outstanding contributions in chemistry, physics, literature, peace, and physiology or medicine.

So, our plan is to learn about each of the four different regimes. We'll do this for each one in turn. Then we'll see how to put everything together, to construct a titration curve – the variation of pH throughout the four regimes.
