Isolera, Spektra is a high performance ACI, system and new generation of purification system. It is backwards compatible as a software upgrade for existing Isolera systems. Isolera Spektra is a world leading automated flash system designed to purify synthesis reaction mixtures, natural product extracts, and other organic compound mixtures from milligram to multi-gram quantities.

Corticosteroids are a class of steroid hormones that are produced in the adrenal cortex of vertebrates, as well as the synthetic analogues of these hormones. Two main classes of corticosteroids, glucocorticoids and mineralocorticoids, are involved in a wide range of physiological processes, including stress response, immune response, and regulation of inflammation, carbohydrate metabolism ...

Forced degradation is a degradation of new drug substance and drug product at conditions more severe than accelerated conditions. It is required to demonstrate specificity of stability indicating methods and also provides an insight into degradation pathways and degradation products of the drug substance and helps in elucidation of the structure of the degradation products.

### **Development of forced degradation and stability indicating**

We are given a training dataset of points of the form  $(\hat{x}^i, y^i)$ , where  $y^i$  is either 1 or -1, each indicating the class to which the point  $\hat{x}^i$  belongs. Each  $\hat{x}^i$  is a  $d$ -dimensional real vector. We want to find the "maximum-margin hyperplane" that divides the group of points  $\hat{x}^i$  for which  $y^i = 1$  from the group of points for which  $y^i = -1$ , which is defined so that the distance between the ...
