Citizen science projects are activities sponsored by a wide variety of organizations so non-scientists can meaningfully contribute to scientific research. Activities vary widely from transcribing old ship logbooks to digitize the data as part of the Old Weather project to observing and counting birds at home or in the field for eBird. Participation can be as simple as playing a computer game ...

Every citizen is a national of the United States, but not every national is a citizen. There is a small class of American Samoans, born in American Samoa, including Swains Island, who are nationals but not citizens of the United States, This is because people born in American Samoa are not automatically granted US citizenship by birth. See Passport message, below.
