People-first language (PFL), also called person-first language (PFL), is a type of linguistic prescription to avoid marginalization or dehumanization (either conscious or subconscious) when discussing people with a health issue or disability. It can be a type of disability etiquette but more often is applied to any group that would otherwise be defined or mentally categorized by a condition or ...

The personality-job fit theory postulates that a person's personality traits will reveal insight as to adaptability within an organization. The degree of confluence between a person and the organization is expressed as their Person-Organization (P-O) fit. This is also referred to as a person's environment fit.
