Albany has been a center of transportation for much of its history. In the late 18th and early 19th centuries, Albany saw development of the turnpike and by 1815, Albany was the turnpike center of the state. Simeon De Witt developed a grid block system in 1794, and renamed streets that had honored British royalty, using names of birds and mammals instead.

A domain-specific language (DSL) is a computer language specialized to a particular application domain. This is in contrast to a general-purpose language (GPL), which is broadly applicable across domains. There are a wide variety of DSLs, ranging from widely used languages for common domains, such as HTML for web pages, down to languages used by only one or a few pieces of software, such as ...
