### **constitutional law volume 2 pdf**

The United States Constitution is the supreme law of the United States. The Constitution, originally comprising seven articles, delineates the national frame of government. Its first three articles embody the doctrine of the separation of powers, whereby the federal government is divided into three branches: the legislative, consisting of the bicameral Congress (Article One); the executive ...

Constitutional economics is a research program in economics and constitutionalism that has been described as explaining the choice "of alternative sets of legal-institutional-constitutional rules that constrain the choices and activities of economic and political agents". This extends beyond the definition of "the economic analysis of constitutional law" and is distinct from explaining the ...

Constitutionalism. Constitutionalism is the idea, often associated with the political theories of John Locke and the "founders" of the American republic, and equated with the concept of regula iuris, the "Rule of Law", that government can and should be legally limited in its powers, and that its authority depends on enforcing these limitations. The following links and documents explore this ...
