Since the mid-2000s, organizational change management and transformation have become permanent features of the business landscape. Vast new markets and labor pools have opened up, innovative technologies have put once-powerful business models on the chopping block, and capital flows and investor demand have become less predictable.

Collaboration is the process of two or more people or organizations working together to complete a task or achieve a goal. Collaboration is similar to cooperation. Most collaboration requires leadership, although the form of leadership can be social within a decentralized and egalitarian group. Teams that work collaboratively often access greater resources, recognition and rewards when facing ...
