I bought a used Scag Wildcat and put a new 26 hp Kawasaki l/c, the same engine it came with. I got it all hooked up and the temp gauge wasn't working, I figured it was bad as I had to replace a ton of parts on this mower, a lot more than I wanted.

Hi. I have a 1997 Broadmoor with a 16 hp B/S Vanguard motor and a hydrostatic drive transmission. The mower has approx 900 hours and has been well maintained. A recent problem has developed with regard to the drive line, in that when the machine gets hot, it can not pull its own weight. It gradually slows to the point of stopping. When starting out cold, it goes fine.
